

22nd June 2020

Dear parents/carers,

This week, each teacher has a scheduled a video call with their class. We would love it if as many as children as possible could join the call. The teacher will host the call where they will set out the rules of the call at the very start. In order to keep technology at its most simple, we will be hosting each call via Zoom as this will mean that no apps need to be downloaded.

If you would like your child to join their class call then please email the year group email accounts to request a link; the class teacher will respond with a link to the call and a password. Your child will be able to join the video call on a mobile, tablet or laptop. For any children who feel nervous or shy, there will be no pressure to speak or be seen if they wish.
